

## Part III

### Statistical Information

Part I of this book contains many tables showing the numbers of academic staff, Visiting Fellows and PhD students working in the School as a whole and its Departments and Divisions, but detailed information on their names and careers is provided for few other than the senior staff. In Appendix I we set out the full names and career paths of all academic staff appointed during the period 1948 to 1988, when the School was organized on a departmental basis. Appendix II provides similar data for the period 1988 to 1998, by Divisions and their constituent Groups and Laboratories. There is some overlap, because the Divisional Structure was introduced in 1988 but amended to its permanent form in 1989. The main source of data has been the School's Annual Reports and Faculty Board Minutes, supplemented by help from the Archivist and divisional administrators, and is as complete and accurate as we have been able to make it.

Appendices III and IV provide similar information for Visiting Fellows who have worked for two months or more in a Department or Division respectively. Because of the paucity of information we have not been able to provide first names, but only initials. Where possible, we have included the name of the institution from which each Visiting Fellow came. Sometimes this has not been possible, as such details were often not recorded in the Faculty Board Minutes (but in Attachments to the Agendas, which have not been kept) and are not available from the Archives.

Appendices V and VI record the names of PhD students graduating annually, by Departments and Divisions respectively. Appendix VII consolidates the service of academic staff on committees and councils of national and international scientific societies, government committees and the like, over the period 1948 to 1998. It does not record service on editorial boards of scientific journals nor on assessment committees of the NH&MRC. Appendix VIII records the funds derived annually from outside sources, by the name(s) of recipients and in the values operative at the time. The source has been the JCSMR Annual Reports, and the Business Manager, Phil Bunyan, has kindly checked the more recent and larger items. This Appendix provided the data (converted to 1998 dollars) for the tables on external funding that appear in several chapters of Part I.

## Appendix I. Academic Staff, by Departments and Units, 1948–88

Tenured positions: Professor, PP = Personal Professor, PF = Professorial Fellow, R = Reader (PF and R had the same status), SF = Senior Fellow, F = Fellow

Non-tenured positions: SRF = Senior Research Fellow, RF = Research Fellow, PDF = Postdoctoral Fellow

Where only one date is shown, the appointment extended beyond December 1988 and will be shown again in Appendix II.

### **Head of School**

Dean: Ennor, Arnold Hughes, Jun 1953, resigned Feb 1967  
Acting Dean: Courtice, Frederick Colin, Feb to Sep 1967  
Director: Fenner, Frank John, Sep 1967, resigned May 1973  
Acting Director: Courtice, Frederick Colin, May 1973 to Nov 1974  
Director: Courtice, Frederick Colin, Nov 1974, retired Dec 1976  
Director: Gibson, Frank William Ernest, Jan 1977 to Dec 1979  
Director: Porter, Robert, Mar 1980

### **Biochemistry (established 1948)**

Alexander, Kenneth Thomas, PDF Jan 1977 to Nov 1978  
Armarego, Wilfred Louis Florio, RF Jan 1960, F Oct 1963, SF Jul 1967, transferred from Medical Chemistry Group, 1983  
Baindur, Swati, RF Nov 1986 to Oct 1988  
Beatty, Iva May, RF Nov 1962 to Sep 1964  
Blakley, Raymond Leonard, RF Nov 1953, F Jul 1956, SF Jul 1961, PF Oct 1965, resigned 1969  
Briggs, Margaret Jocelyn, RF (electron microscopist) May 1955, transferred to Physical Biochemistry, 1959  
Campbell, Hugh Douglas, PDF 1979, RF Jan 1981, transferred to Medical Molecular Biology Unit, Jul 1984
