

## Appendix VIII, External Grants

The value of external grants is summarized, by Department or Division, in 1998\$A values, in tables in Chapters 3 through 8. The data below show the sources and recipients of these grants and the amounts received in terms of the currency at the time, the value of which in 1998\$A is shown against each year. In later years many grants (notably from NH&MRC and ARC) were held jointly by staff of JCSMR and Visiting Fellows or staff of The Faculties (ANU) or other Australian Universities. Funds coming with Visiting Fellows alone are indicated by a single asterisk (\*) before the name; those associated with a staff member and Visiting Fellows or staff not in JCSMR are indicated by a double asterisk (\*\*) before the first name.
