

Subject Index

(Figures in bold indicate an illustration)

- Academic Advisory Committee, 8-9, **10**, 11
Academic staff, *see also* Visiting Fellows
categories, 41, 68-69, 96, 121, 123, 163,
164, 193
conditions of employment, 12, 193-194
Funder review, 159-160
initial professorial appointments, 12-15
names and details, 473-490
numbers, 24, 39, 69, 96, 121, 164, 193
Animal Breeding Establishment, *see* Support
services
Annual Retreat, 210
Australian Army Directorate of Research and
Civil Affairs, 4-6
Australian National University
Australian National University Act 1946, 8
effect of Dawkins White Paper (1988), 155
Graduate School, 151
origin, 1-11
overseas research scholarships, 20, 34
Postgraduate Committee in Medicine, 68,
214
Clinical teaching, 124
Canberra Clinical School, 163-164
Collaborative research, 33, 143, 174, 175, 209,
210
Conferences, 89, 109, 177-178, 212-213
Advanced Training Course in Immunology,
213
Autoimmunity Workshops, 213
Austro-Italian Symposium, 213
Bishop Conference, 132
Curtin Conferences, 212
Curtis Conference, 212
Frank and Bobbie Fenner Conferences,
177-178, 212
Florey Centenary Symposium on
Helicobacter pylori, 213
Molecular Modelling Workshops, 213
Departments, *see also* Units
Biochemistry, 19, 23, 25, 26, 47, 75-76,
96-97, 124-125
early accommodation, **22-23**
Clinical Science, 43-44, 71-72, 97-98,
125-126
Medicine and Clinical Science, 125
Experimental Pathology, 20, 23, 26, 47-49,
77, 98-99, 126-127
early accommodation, 23
Genetics, 43, 69
Human Biology, 72-74, 99, 128
accommodation, 83, 85
Human Genetics, 70, 128
Immunology, 74, 100, 128-129
Medical Chemistry, 26, 49-50, 70, 77-78
early accommodation, 26
Microbiology, 20, 26-28, 50-52, 79-80,
101-102, 129-130
early accommodation, **22-23**
Pharmacology, 74 75, 103, 130-131
Physical Biochemistry, 42, 80-81, 103,
131-132
Physiology, 20, 28, 52-54, 81-82, 104-105,
132-133
early accommodation, 23
Divisions, 122, 192
Biochemistry and Molecular Biology,
165-166, 192, 196-197
Cell Biology, 166-167
Clinical Sciences, 167-169
Immunology and Cell Biology, 192, 197,
197-199
Molecular Medicine, 192, 199-201
Neuroscience, 169-170, 192, 201-202, 204
Equal opportunity and affirmative action, 191
Essays, *see Contents, pp. v to vii, for full titles
and authors*
adenovirus DNA replication, 393-395
AIDS vaccine, 352-353
antibody-dependent enhancement, 402-403
anti-cancer drugs, 268-270
apoptosis, 259-260
aromatic vitamins, 238-240
autoimmune encephalomyelitis, 341-343
azines, 365-366
bacteriophage DNA, 379-380
bioinformatics and genetics, 302-305
biological inorganic chemistry, 370-371
bowel cancer, 288-290
cardiovascular disease, 277-282
cell-mediated immunity, 319-322
cellular motion, 255-258
central amino acid transmitters, 427-433
central synaptic transmission, 411-414,
454-455
chemotaxis chamber, 317-318
chromatin architecture, 244-246
computation and informatics, 251-254
coronary heart disease, 275-277
costimulation and NK cells, 329-330
cytokine signalling, 249-250
cytokines and malaria, 405-407
cytophilic antibody, 318

Subject Index

- dihydrofolate reductase, 232-234
Eccles' laboratory, 408-411
flaviviruses and MHC pathways, 403-405
gastroenterology, 284-288
gene targeting in mice, 462-464
glaucoma, 450-451
glutathione transferases, 306-308
haematopoietic cytokines, 261-262
heterocycles, 356-358, 358-360
hippocampal and cerebellar cortices, 422-424
HLA system genetics, 298-301
immune deviation, 330-333
immunology of sheep, 344-348
influenza immunology, 333-335, 375-376
influenza neuraminidase, 376-378
lombrocine, 229-231
lymphocyte costimulator, 327-328
malignant hyperthermia, 282-284, 459
Medical Genome Centre, 311-315
membrane sodium channel, 456-457
MHC restriction, 323-324, 324-327
microanalysis of heterocycles, 363-365
microelectrophoresis, 425-427
milk proteins, 240-242
morphine, neuropeptides and pain, 433-435
motoneurons, 411-414
mucosal immunity, 336-338
Murray Valley encephalitis, 396-399
muscle research, 457-459
myxomatosis, 372-375
nerve growth factors, 266-267, 439-441
neurophysiology of vision, 441-442, 447-451
nuclear transport, 246-248
oxidative phosphorylation, 235-238
pathogenesis of asthma, 338-340
pathogenesis of viral diseases, 381-383, 384-386
poliovirus genetics, 391-392
population genetics, 294-298, 298-301
presynaptic inhibition, 416-421
primate cerebral cortex, 451-452
prime-boost immunisation, 349-351
protein interactions, 243-244
pteridines, 360-363
receptor signalling, 266-267
research in clinical medicine, 271-274, 277-279
retinal research, 443-447
Ross River virus infections, 400-401
selective toxicity, 254-356
single electrode voltage clamp, 453-454
smallpox eradication, 466-469
solution equilibria, 367-369
somatosensory pathways, 416-421
spinal pathways, 414-416
transmission in peripheral nervous system, 436-439
transplantation immunobiology, 263-266
ubiquitins, 308-311
urban biology, 460-461
vaccinia genetics, 390-391
vaccinia molecular biology, 378-379, 387-389
work with World Health Organization, 465-466
- Financial arrangements, ANU funding, 12, 33, 42, 124, 172, 189
external grants, 33, 60, 61, 88, 109, 124, 144-146, 178, 179-180, 189, 214-216, 519-541
funding by Department of Health, Housing and Community Services (1992-1996), 162-163, 192
one-line budgets for Group/Laboratory Leaders, 192
possible funding by NH&MRC, 156-161
Florey's role, development of JCSMR, 10-11, 12-19
Florey Exhibit, **148**
Florey Fellowships, 65, 89, 147
Florey Lectureships, 147-148
Howard Florey Fellowships, 147, 217
Howard Florey Laboratories, **203**
Howard Florey Young Investigators Award, 181, 219
memorial plaque, Westminster Abbey, 148
origin of JCSMR, 3-11
resignations as Adviser, 28-29, 35-36
- Governance, Academic Assistant to Director, 175-176, 191
ANU - Department of Health, Housing and Community Services Liaison Committee (1992), 162-163
Blanden Committee on Structure, Organization and Government (1984), 121-122
Butt Committee, (1967), 38, 67
Director's Advisory Committee (1989), **151**
Faculty, 38, 66-67, 120, 189
Chairman, 67, 93, 120, 151, 189
Faculty Board, 38, 66-68, 93-94, 120, 151, 188
Committees, 68, 94-95, 120, 121, 189-190
International Advisory Board (1981), 119-120
JCSMR Steering Committee (1996), 191
Research Advisory Board (1991), 154-155, 187-189, 221

- School Committee, 29, 37-38
- Groups, 192
 - Autonomic Synapse, 202
 - Cardiovascular Disease, 167, 200
 - Cell-cell Interaction, 166, 198
 - Cell Physiology, 169
 - Cell Transformation, 166, 198
 - Cellular Neurophysiology, 204
 - Computational Molecular Biology and Drug Design, 197
 - Developmental (later Experimental)
 - Haematology, 167, 199, 200
 - Developmental Neurobiology, 169, 201
 - Developmental Physiology, 167, 200
 - Human Genetics, 169, 200
 - Medical Chemistry, 101, 132
 - Medical Molecular Biology, 165, 197
 - Membrane Biochemistry, 165, 197
 - Membrane Physiology and Biophysics, 169, 197, 202
 - Mucosal Inflammation and Cancer, 167, 199
 - Molecular Genetics, 169, 200
 - Molecular Immunology Immunopathology, 198
 - Molecular Signalling, 202
 - Muscle Physiology, 169, 197, 202
 - Neuropharmacology, 169
 - Neurophysiology, 169, 204
 - Organic Chemistry, 169, 204
 - Protein Biochemistry, 166
 - Protein Chemistry, 122, 131-132
 - Synaptic Biochemistry, 202
 - Synaptic Biophysics, 204
 - Synaptic Structure and Function, 204
 - Synaptic Transmission, 204
 - Transcriptional Regulation, 199
 - Urban Biology, 83
 - Viral Engineering and Cancer Biology (later Cytokine Research), 166, 198
 - Viral Immunology, 166, 197
 - Visual Neurosciences, 169, 202
- Howard Florey Young Investigators Award, 181, 219
- Nobel Prize, 61-62, 217
- Institute of Advanced Studies, 36, 39
 - Boardman review (1995), 194, 196, 224-225
 - Stephen review (1990), 155-163, 184-185
 - union with Canberra University College, 39
- JCSMR Centres, Medical Genome, 199-201
 - National Collaborating Centre for Autoimmunity, 186
- Laboratories, 192
 - Apoptosis, 198
 - Australian Cancer Foundation Genetics Laboratory, 200
 - Autoimmunity/Genetic Manipulation, 197
 - Biological NMR, 197
 - Cancer Genetics, 199
 - Chromatin and Transcription, 197
 - Cytokine Gene Transcription, 197
 - Diabetes, 200
 - Gene Targeting, 166, 197
 - Influenza Virus Immunochemistry, 122, 129-130, 166
 - Leukocyte Signalling Regulation, 197
 - Molecular Immunology, 200
 - Molecular Virology, 198
 - Nuclear Signalling, 197
- Library, Medical Sciences, 30, 55, 83, **84**, 188
 - Eccles Medical Sciences Library, 188-189
- Major events, tabulated, 13, 36, 66, 91, 117, 152, 187
- Medical Sciences Program of ANU Graduate School, 151-152
- National Health Sciences Centre, 191-192
- Origins of School, 1-11
- Permanent JCSMR building, **18**
 - modifications, 83, 136-137, **203**, 204
 - occupation, 38-39
 - opening, 39, **40**
 - planning, 15-19
 - specific-pathogen-free animal house, 83, 107
 - Spring Valley Farm cattery, **107**
- Public relations activities, 148-149, 175-176, 210
 - Curtinraiser*, 176
 - Open days, 149, 210
 - Australian Science Festival, 211
- Heads of School, 10-11
 - Dean, Ennor, 25, 36, 65-66, **67**
 - Dean, Acting, Courtice, 66
 - Director, Fenner, 66
 - Director, Acting, Courtice, 91; Young, 151; Serjeantson, 186
 - Director and Howard Florey Professor of Medical Research, Courtice, 66; Gibson, 91-92; Porter, 92, 116-118; Curtis, 150-151; Lafferty, 186-187; Whitworth, 186
 - Director, Interim, Young, 186
- Honours and awards, 33, 61-63, 89-90, 109-110, 146-147, 178, 181, 217-219
 - Frank Fenner Medal, 219

Subject Index

- Research Programs, 192
Cellular Signalling and Development, 192
Diabetes/Autoimmunity, 192, 200
Immunity and Immunopathology in
Infectious Diseases, 192
Integrative Genetics, 192
Membrane Biology, 192, 197
Molecular and Cellular Regulation of the
Immune Response, 192
Molecules to Memory, 204
Synaptic Transmission and Plasticity, 192
Transcriptional Regulation, 192, 197
- Research School of Biological Sciences, 43,
69-70
- Reviews of JCSMR, Burgen (1978), 92-93,
111-115, 118-119
departmental, 121
Korner (1988), 120, 153-153, 182-183
Maclaren (1995), 194-196, 222-223
Stephen (1990), 155-161, 184-185
- Scholarships, Doherty Scholarships, 220
Eccles Scholarships, 219
Fenner Merit Scholarships, 220
Honours Scholarships, 176, 219
Paul Bunyan Memorial Scholarship, 220
Postgraduate Students, 95, 123, 176
Vacation Scholarships, 149, 176, 219
Zinkernagel Scholarships, 220
- Senate Standing Committee Inquiry (1992),
150, 161-162
- Service to outside organizations, 59-60, 88, 108,
143, 174-175, 209-210, 510-518
- Specialist facilities, ANU Protein/DNA
Facility, 166, 174
Biomedical Resource Facility, 209
computer services, 87, 108, **118**, 141-**142**,
173-174, 208-209
electron microscopy, 33, 46, 58-59, 70,
87-88
electron microscopy and histopathology,
108, 142, 174, 209
fluorescence activated cell sorter (FACS),
142-143, 174, 209
information technology (IT) unit, 208
microanalytical service, 33, 58, 77, 88
photographic service, 33, 58, 87, 108,
140-**141**, 173, 208
spectroscopic service, 58
- Staff of School, 1953, **24**
- Students, *see also* Scholarships
MSc degree, 95
PhD degree, 8, 20, 95, 123, 504-509
recruitment, 176
- Support services, administrative, 30, 55, 85,
106, 137-138, 172, 205, 206
Animal Breeding Establishment, 28, 31, 56,
83, 85-86, 106
Animal Services, 139-140, 173, 206-207
laboratory technicians, 29-30, 54-55, 85,
105, 137, 171, 204, 206
research assistants, 30, 42
security and cleaning, 58, 87, 107, 140, 173,
207-208
purchasing and stores, 32, 58, 87, 140, 207,
209
Technical Services (Workshop), 138-139,
173, 206, **207**
Workshop, 30, 55, **57**, 85, 106-**107**
permanent, **17**, **18**, 30-**31**,
temporary, **21**, 23
- Temporary laboratories, **22-23**
- Units, Biological Inorganic Chemistry, 44-45
Cardiovascular Pathology and Morphology,
123, 126
Electron Microscope, 46, 70
Experimental Neurology, 134-135
Medical Molecular Biology Unit, 122,
135-136
Transplantation Biology, 122, 125-126
Visual Neurosciences, 123, 132
- University Centres, Molecular Structure and
Function, 166
Visual Sciences, 152-153, 170-171
- Visiting Fellows, 41, 46-47, 68-69, 123,
491-503
- Workshop, *see* Support services
