THE JOHN CURTIN SCHOOL OF MEDICAL RESEARCH: PhD SCHOLARSHIPS

- > **Receive scholarship funding for 3.5 years with a fee waiver for international students**
- > **Work on an exciting precision medicine research project with internationally renowned experts**
- > **Enjoy state-of-the-art facilities**
- > **Meet and collaborate with international academics and attend conferences**
- > **Gain practical, academic and professional training at a world-class research-intensive university**

The Australian National University (ANU) is looking for the best PhD candidates in the world to join us at one of the best universities in the world.

You will study alongside leading scientists in state-of-the-art laboratories at Australia's national medical research institute, the John Curtin School of Medical Research (JCSMR), as they work on ground-breaking research which could change lives – and will certainly change yours.

You may help to develop a vaccine for malaria or HIV, or make a discovery about the brain that leads to new treatments for epilepsy. You might make a fundamental discovery about RNA that sheds light on genetic disorders, or perhaps you will be part of a team that discovers a completely new way to treat cancer.

This is an opportunity for outstanding local and international students with a Bachelor degree with First Class Honours (or equivalent) to start their career in medical research at a university ranked best in the country and 19th in the world (QS World University Rankings).

Successful candidates will receive a three-year living allowance to complete their PhD

with us in Canberra, named the world's most liveable city in the OECD Better Life Index.

In addition, successful international candidates will receive a full fee waiver for the three years of their PhD.

Scholarships are available across all of our research departments, incorporating neuroscience, genomics, immunology and cancer.

To read about some of the exciting projects currently available, and to contact a researcher directly, please see: <http://jcsmr.anu.edu.au/study/projects-supervisors>

How to apply:

For more information about applying to join one of our dynamic, multi-disciplinary teams at JCSMR please contact Associate Professor Marco Casarotto at jcsmr.gradprog@anu.edu.au

Closing dates for applications: 31 May, 31 August and 31 October each year.
